Abdelrahman Maher

Front-End Developer (React) | Computer Science Student

Tanta, Egypt | GitHub: github.com/abdomaaherrashad2003

Professional Summary

Front-End Developer focused on building modern, responsive web applications using React.js and Bootstrap. Final-year Computer Science student at the Faculty of Computers and Information, Tanta University. Strong foundation in programming and problem solving with experience in JavaScript, C++, and Node.js. Currently working toward becoming a Full-Stack Developer.

Education

Bachelor of Computer Science (CS)
Faculty of Computers and Information – Tanta University
Fourth Year – Expected Graduation: 2026

Technical Skills

- Front-End: HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, Responsive Design
- Programming Languages: JavaScript, C++
- Back-End: Node.js (currently studying), Express.js (basic)
- Databases: Basic understanding of CRUD operations
- Tools: Git, GitHub, npm, VS Code

Training

SEF Academy – Front-End Development
6-month intensive training covering HTML, CSS, Bootstrap, JavaScript, and React.js.

Projects

Built multiple front-end projects using React and Bootstrap with a focus on clean code, reusable components, and responsive user interfaces. Projects are available on GitHub.

Career Goal

To start my career as a Front-End Developer and continue developing my back-end skills to become a Full-Stack Developer.
